

Do I need to
issue a 1099-K
for \$10,000?

As of my
knowledge
cutoff in March
2023, the limit
is **\$20,000**

2022  **IRS**

Form 1099-K is issued
for transactions only if
the aggregate amount of
these transactions
exceeded **\$20,000**

2023  **IRS**

Now a single
transaction exceeding
\$600 can require the
third party platform to
issue a 1099-K.
